PROJECT 2 (GROUP PROJECT)

EDUCATION WEBSITE

Project informations

Project Type - Education Website with simple user registration system

Project Duration – 10 Days

Start Date	End Date (Submit Date)
30.5.22	10.6.22

Project brief

Future Hope is the education website with simple user registration system. This website have 8 pages.These are –

1. Home
2. About Us
3. Courses
4. Primary
5. Secondary
6. Summer Programs
7. Activities
8. Contact Us

The user registration system is very simple – register, login and logout. You don't need to create other dashboard functions.

You need to create web design and development with your team. You need to find text and photo for related pages but we will provide sitemap, logo, slider images, about us image, about us text, activities images for this website. This website need to be responsive.

You can use this technology for website as below –

HTML, CSS, JAVASCRIPT, JQUERY, BOOTSTRAP, PHP, MYSQL

Project schdules

Web Design - 3 days

Website Development -5 days

Testing and Debugging - 2 days

1. Web Design

You need to create web design with your team in 3 days. You can use all of design tools figma, photoshop,Adobe XD , draw wireframe on paper or something. (Note - No need to submit design file. eg - psd file)

2. Development

In development stage, you have to create all web pages and simple user registration system.

3. Testing and Debugging

In testing and debugging stage, you need to test your website

error.We want to show some examples for testing. These are -

1. Check website title.
2. Check website favicon icon include or not?
3. Check your website loading time.
4. Check your website responsive css are working correctly or not?
5. Check your image file path, link working or broken?
6. User registration form is working or not?
7. Can do sign in and signout?
